*Teachers:* This kriya can be taught for beginners, intermediate, or advanced. As written, it is for intermediate students or students in good physical condition. To adapt it for beginners decrease the exercise times and increase the rests between exercises. For 1 do **3 minutes** of Sat Kriya and **5 minutes** of rest. After exercises 7-11 add **1 minute** of rest or slightly less depending on the class. As an advanced set that assumes you are warmed up and in good shape eliminate the rest periods from exercises 4-6.

*Comments:* This will energize and balance the lower triangle. It is very curative for any digestive or sexual ailments. It gives endurance and breaks fevers. It often produces a pleasant sweat and cleansing of the skin. The first few times the legs may shake or be slightly weak. As the muscles build, you will walk with increased grace and certainty. The transitions between exercises are smooth So the phrase 'no rest' does not mean leap and jerk. You may need to remind people to concentrate on the centers as they do Sat Kriya. Be sure that the chin is pulled in on Sat Kriya and that the face is forward in the down position of Frog Pose.
